

Name _____ Date _____ Period _____

Biology, 2nd 9 Weeks, Week 2.6-2.7 Warm-up 5

Directions: Answer the following questions using your journal as a reference and provide a justification for each question.

1. The skeletal system functions to _____.
 - a. break down food into smaller molecules
 - b. produce movement
 - c. provide protection and support
 - d. deliver nutrients to every cell in the body

Justification

2. The skeletal system works with the circulatory system by _____.
 - a. producing blood cells in the bones
 - c. supplying oxygen for transport
 - d. thickening the capillary walls

Justification

3. What system does the skeletal system work with to produce movement?
 - a. circulatory system
 - b. endocrine system
 - c. excretory system
 - d. muscular system

Justification
